

Join The Sustainable Digital Inclusion Revolution™

Sustainable Tech Partnerships™

# SustainableTech4Good's TechAID solution synergises charities with linked companies to enable scaling up of their digital inclusion offer.

## ADVANTAGES FOR CHARITIES

- Joint approach to companies with links to the charity through e.g. trustees or volunteers
- The charity has identified a specific need for devices
- The charity can gain access to quality, sustainable, refurbished tech at no cost
- The charity has the confidence to scale up its digital inclusion offer
- More people reached with digital inclusion

## ADVANTAGES FOR BUSINESSES

- Data secure, sustainable, socially good solution for redundant tech after IT refresh
- All types of equipment covered from legacy to current, hand-held through to server/networking
- Secure collection and full audit
- Legacy tech repaired and refurbished for donation to the charity with which they are linked
- Current tech/server networking purchased - funds back for IT refresh or CSR programme
- Items purchased sold through Tech4Change, where for every 10th device sold, a device is donated to one of Tech4Inclusion's charity partners for further digital inclusion.
- Full digital inclusion and sustainability reporting and data erasure certification

**FACT**

We've helped over **5,000 people** to get access to laptops and other devices

Sustainable tech, covered by our Sustainable Tech Quality Guarantee. Legacy tech is securely collected, audited, data-erased (HMG Infosec Standard 5 - Enhanced), repaired and refurbished for sustainable reuse by a charity or for sale via Tech4Change.

**FACT**

We've saved over **10,000kgs** of electronic waste from landfill
