

Green Foot Guarantee

- Our Greenfoot logo is your guarantee that the product you are buying is sustainable and helping reduce our impact on the environment through re-use.
 - ST4G skilled engineers ensure all laptops are tested against manufacturers' specifications, with any failed units being used for spare parts to ensure total Sustainability and Quality are at the forefront of the devices we provide.
 - Our website estimates your contribution to our overall environmental impact - as you buy our sustainable devices, the environmental impact statistics on our website will update.
 - Your purchase helps others in need – when you buy, we also donate, and you can see how many items we have donated to our partner charities through our Sustainable Tech 4 Good website: www.Sustainabletech4good.co.uk
 - The refurbishment process directly avoids the depletion of many of the Earth's resources that are part of the original manufacture of every new device, such as water, Rare Earth Materials and the emissions of CO2 into the atmosphere. The process also means e-waste is not increased from the unnecessary disposal of a working device.
