

Sustainability Report

Collection Reference: 1277

Client: Example Sustainability Report

Collection Date: 9th April 2024

Thank you for working with [Sustainable Tech 4 Good](#) - by using our Secure, Sustainable Solution, you have been able to prevent the following by others reusing your technology, rather than purchasing new.

The figures are derived from both the Base Empreinte database generated by ADEME, the French Environment and Energy Management Agency, to detail the emission factors associated with various processes – including IT equipment manufacture and, where possible, manufacturer statistics.

Approx 170

Kg eWaste saved from landfill

Approx 159,520

Litres of water saved from additional manufacturing

Approx 24.92

Tonnes of CO2 Saved from entering the atmosphere

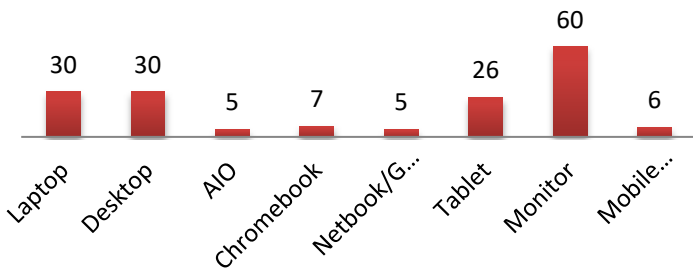

Approx 136

Tonnes of Earth's Resources from being used

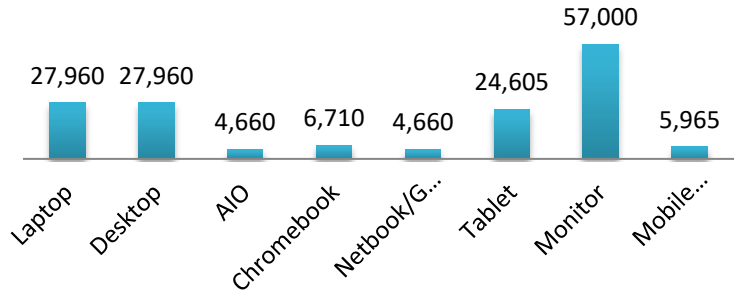

e-waste (Approx kg)

e-waste (Approx kg)

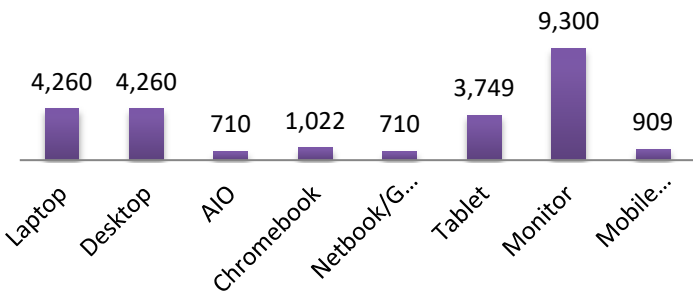

Water (Approx Litres)

Water (Approx Litres)

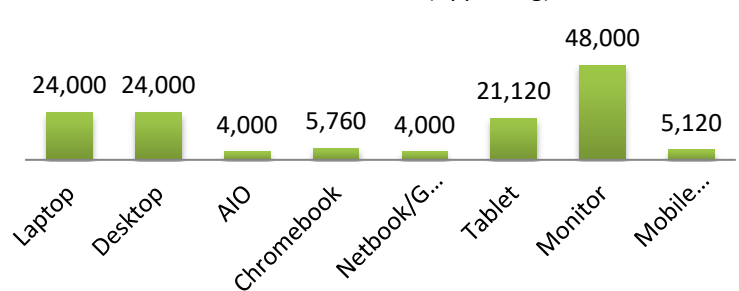

CO2 (Approx kg)

CO2 (Approx kg)

Earth's resources (Approx kg)

Earth's resources (Approx kg)
